- Download FactoryTalk Activation Manager

Registering and Activating Your Product

All Rockwell Automation software products use FactoryTalk Activation, a process that registers your software and delivers activation files over the Internet. For more information on FactoryTalk Activation, please go to:

<https://activate.rockwellautomation.com>

IMPORTANT: The newest version of the FactoryTalk Activation Manager has important updates. If you have previously installed the FactoryTalk Activation Manager, please install the latest version before activating your product. To be sure you have downloaded the latest version, please go to:

<https://activate.rockwellautomation.com>
